

Danske Invest SICAV Europe Long-Short Equity Factors Class WA-sek h p

ESG data

Danske Bank leverages ESG research & analytics from multiple data vendors. In this report, we use Sustainalytics 'ESG Risk Rating' framework which measures the degree to which a company's economic value is at risk driven by ESG factors, or rather, the magnitude of a company's unmanaged ESG risks.

Sustainalytics research out-takes

- Measures company exposure to industry-specific material risks and how well the company is managing those risks.
- The level of exposure is based on factors such as the business model, financial strength, geography and controversies.
- Corporate governance ratings are fully integrated into the ESG risk ratings as the baseline for all companies.
- Nearly 40 industry-specific indicators available to assess company performance.

Sustainalytics building blocks

Sustainalytics risk levels

Holdings	Scale
Severe	>40
High	30-40
Medium	20-30
Low	10-20

Investment policy

The fund invests mainly in long and short positions in European equities. To a small extent, the fund may invest in equities from developed countries outside Europe. In actively managing the fund's portfolio, the management team uses a long-short strategy, taking long exposure to equities it believes will increase in price and short exposure to equities it believes will decline in price or offset the volatility of its long positions. The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes. The main part of the share class' NAV will be hedged against the base currency of the fund. However, the share class remains exposed to the currencies of the investments in the fund.

Disclaimer & contact information

This publication has been prepared by Danske Bank Asset Management - a division of Danske Bank A/S ('Danske Bank'). Danske Bank is under supervision by the Danish Financial Supervisory Authority (Finanstilsynet).

This publication has been prepared for information purposes only and it is not to be relied upon as investment, legal, tax, or financial advice. The reader must consult with his or her professional advisors as to the legal, tax, financial or other matters relevant to the suitability and appropriateness of an investment.
