

**Objectives and investment policy****Objectives**

The objective of this fund is to achieve a performance that is at least equal to that of medium-term Danish bonds. Dividends are normally distributed to investors each year.

**Investment policy**

The fund invests mainly in highly rated investment grade Danish bonds. The fund adheres to the Responsible Investment Policy of Danske Bank and restricts certain sectors and companies from its investment universe. The fund usually invests in securities that are rated AAA (or similar) at the time of purchase. However, it may hold securities with a lower credit rating as a result of a credit downgrade. In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics. The fund may use derivatives for hedging and efficient portfolio management. The total modified duration, including cash and the adjustment for estimated premature redemption risk, ranges from 2 to 5 years. Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.
