

Objectives and investment policy**Objectives**

The objective of this fund is to achieve performance that is at least equal to that of long-term Danish bonds. Dividends are normally distributed to investors each year.

Investment policy

The fund invests mainly in highly rated investment grade mortgage bonds that are denominated in Danish Kroner (DKK).

Specifically, the fund invests at least two-thirds of net assets in mortgage bonds (including covered bonds) that are issued by Danish mortgage credit institutions and are traded on a regulated market, and are denominated in DKK.

The fund may invest up to 20% of net assets in securities denominated in EUR, SEK and NOK.

The total modified duration, including cash and the adjustment for estimated premature redemption risk, is 3 to 9 years.

In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics.

The fund may use derivatives for hedging and efficient portfolio management.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.
