

**Objectives and investment policy****Objectives**

The objective of this fund is to achieve a performance that is at least equal to that of long-term Danish bonds. The share class is accumulating.

**Investment policy**

The fund invests mainly in highly rated investment grade mortgage bonds that are denominated in Danish Krone (DKK).

The fund adheres to the Responsible Investment Policy of Danske Bank and restricts certain sectors and companies from its investment universe.

The fund usually invests in securities that are rated AAA (or similar) at the time of purchase. However, it may hold securities with a lower credit rating as a result of a credit downgrade.

In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics.

The fund may use derivatives for hedging and efficient portfolio management.

The total modified duration, including cash and the adjustment for estimated premature redemption risk, ranges from 3 to 9 years.

The main part of the share class' NAV will be hedged against the base currency of the fund. However, the share class remains exposed to the currencies of the investments in the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.
