

Objectives and investment policy**Objectives**

The objective of this fund is to achieve above-market performance. The share class is accumulating.

Investment policy

The fund invests mainly in equities from anywhere in the world that are expected to contribute to, or benefit from, the transition to a sustainable future and circular economy.

The fund promotes various environmental and social characteristics and good governance practices through a commitment to systematically identify and address sustainability factors throughout the investment management processes and through active ownership.

This fund is not a sustainable investment product as described in Article 9 of the Sustainable Finance Disclosure Regulation (SFDR, Regulation (EU) 2019/2088). In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics.

The fund generally expects that its holdings, and therefore its performance, may differ significantly from those of the benchmark.

The fund may use derivatives for hedging and efficient portfolio management.

The fund may invest in Chinese A-shares subject to quota and operational constraints, which may increase legal and counterparty risk.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Return in the period: 30.06.2016 - 30.06.2021

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results.
