Investment policy

The fund invests mainly in inflation-linked bonds with a short duration. Specifically, the fund invests at least two-thirds of net assets in bonds and other debt instruments that are rated Baa3/BBB- or higher (or similar). The fund adheres to the Responsible Investment Policy of Danske Bank and restricts certain sectors and companies from its investment universe. In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics. The fund generally expects that its holdings, and therefore its performance, may differ somewhat from those of the benchmark. The fund may use derivatives for hedging and efficient portfolio management. The total duration, including cash, is the benchmark duration plus or minus 2 years. Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.
