

Objectives and investment policy**Objectives**

The objective of this alternative investment fund is to generate long term returns by investing in alternative investment assets.

Investment policy

The fund invests in a diversified portfolio of different types of investment assets e.g. in infrastructure, forestry, agriculture and real estate. The fund mainly invests in private companies and funds within the OECD countries. Investments aim at sectors with fixed income streams. The investment strategy is active. This means that there may be significant differences in the return relative to the fund's target.

Fund shares can normally be redeemed on redemption days. However, limits on redemption may be in effect. Please refer to the following section in the fund's prospectus: "Redemption of Shares".

Recommendation: This fund is restricted to well-informed investors. This alternative investment fund may not be appropriate for investors who plan to withdraw their money within 7 years.
