

Objectives and investment policy**Objectives**

The objective of this fund is to achieve a performance comparable to the benchmark. Dividends are normally distributed to investors each year.

Investment policy

The fund seeks to track a global equity index.

The management team invests directly in a selection of equities included in the benchmark using a multi-factor model that minimises the tracking error while also reducing trading costs.

The fund adheres to the Responsible Investment Policy of Danske Bank and restricts certain sectors and companies from its investment universe.

In passively managing the fund's portfolio, the portfolio management team invests directly in a selection of equities included in the benchmark, using a multi-factor model designed to reduce trading costs and minimise tracking error. Tracking error is a measure of the difference of returns between the fund and its benchmark.

The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Return in the period: 30.06.2016 - 30.06.2021

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results.

Annual return as of 30.06.2021, %**Annual return as of 30.06.2021**

	2016	2017	2018	2019	2020	YTD
