

Objectives and investment policy**Objectives**

The objective of this fund is to achieve above-market performance, while applying a balanced-to-opportunistic asset allocation strategy. The share class is accumulating.

Investment policy

The fund gains exposure, directly or through other funds, to equities and bonds. The fund generally expects to place an emphasis on equities. The fund only invests in underlying funds where ESG-related processes or criteria are applied. The fund may gain exposure to any credit quality, sector and country, including emerging markets. Specifically, the fund's default asset allocation is 70% in equities and 30% in bonds, but this may be adjusted depending on the investment manager's market outlook. The fund promotes various environmental and social characteristics and good governance practices through a commitment to systematically identify and address sustainability factors throughout the investment management processes and through active ownership. In actively managing the fund's portfolio, the management team applies a flexible asset allocation that seeks to take full advantage of market changes and opportunities. The fund generally expects that its holdings and, therefore its performance, may differ significantly from those of the benchmark. The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes. The fund may invest in Chinese A-shares subject to quota and operational constraints, which may increase legal and counterparty risk. Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Return in the period: 30.06.2016 - 30.06.2021

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results.
