**Investment policy**

The fund invests mainly in equities from anywhere in the world that are expected to deliver highest returns. Specifically, the fund invests at least two-thirds of net assets in equities and equity-related securities that are traded on a regulated market globally. In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics. The fund generally expects that its holdings, and therefore its performance, may differ significantly from those of the benchmark. The fund may use derivatives for hedging and efficient portfolio management. The fund may invest in Chinese A-shares subject to quota and operational constraints, which may increase legal and counterparty risk.
