

Objectives and investment policy**Objectives**

The objective of this fund is to achieve a performance comparable to the benchmark. The share class is accumulating.

Investment policy

The fund seeks to track a Swedish equity index while excluding companies in the weapon sector or whose turnover totally or partially originates from sectors like alcohol, tobacco or pornography.

Specifically, the fund invests in equities and equity-related securities that are traded on a regulated market in Sweden. In addition to the SICAV's sustainable investment policy, the fund applies an ethical screening that excludes companies as described above.

In passively managing the fund's portfolio, the portfolio management team invests directly in a selection of equities included in the benchmark, using a multi-factor model designed to reduce trading costs and minimise tracking error. Tracking error is a measure of the difference of returns between the fund and its benchmark.

The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Return in the period: 22.11.2017 - 31.01.2020

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results.
