

Objectives and investment policy

Objectives

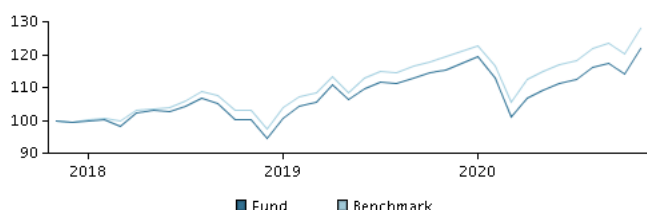

The objective of this fund is to achieve above-market performance, while applying a balanced-to-opportunistic asset allocation strategy. Dividends are normally distributed to investors each year.

Investment policy

The fund gains exposure, directly or through other funds, to equities and bonds, with emphasis on equities, of companies that meet certain sustainable investment criteria. The fund invests only in underlying funds that apply sustainable investment criteria at either the securities selection or index construction level. The fund may gain exposure to any credit quality, sector and country, including emerging markets. In addition to the sustainable investment policy that applies to all funds in the SICAV, this fund does not invest in equities and bonds issued by companies whose revenues mainly originate from sectors such as tobacco or pornography. In actively managing the fund's portfolio, the management team applies a flexible asset allocation that seeks to take full advantage of market changes and opportunities. The fund generally expects that its holdings, and therefore its performance, may differ significantly from those of the benchmark. The fund may invest in Chinese A-shares subject to quota and operational constraints, which may increase legal and counterparty risk. The fund may use derivatives for hedging, efficient portfolio management as well as for investment purposes.

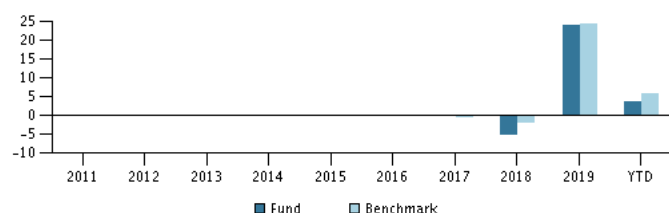

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Return in the period: 21.11.2017 - 30.11.2020

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results.
