

Objectives and investment policy**Objectives**

The objective of this fund is to generate a return at least equal to the return on corporate bonds traded on a regulated market and issued by companies in OECD-countries, mainly in Europe. The fund is accumulating.

Investment policy

The fund invests mainly in corporate bonds issued by companies that have a strong sustainability profile within Environment, Social and Governance issues and integrate a sustainability awareness in relation to climate change and CO2 emissions. Each bond issuer must comply with international principles for responsible investments and controversial sectors are non-investable.

At least 75% of the sub-fund's assets invested in bonds must have a quality corresponding to a credit rating of Baa3/BBB- or higher.

The fund is actively managed. The modified duration of the fund, including cash holdings, shall not exceed benchmark duration plus 2 years.

The fund may use financial derivative investments (such as FX forward contracts and interest rate futures contracts). At least 90% of the fund assets should be invested in bonds denominated in or hedged to EUR.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 4 years.

Return in the period: 16.06.2016 - 30.04.2017

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results.
