Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Danske Invest Allocation

Stable Income Class WA p (LU1555306692)

This fund is managed by Danske Invest Management Company, part of the Danske Bank group.

Objectives and investment policy

Objectives

The objective of this fund is to achieve a combination of stable income and long-term investment growth [total return]. Specifically, the fund seeks to outperform the EURIBOR 3 Month money market rate. The share class is accumulating.

Investment policy

The fund is broadly diversified to minimize asset class specific risks. The fund invests directly in transferable securities listed or traded on regulated markets and money market instruments. The fund also invests in units or shares of other open-ended UCITS and other UCIs. Investments may include fixed income instruments with a credit rating below BBB- (Standard & Poor's) or Baa3 (Moody's). 10% of the portfolio must be invested in equities.

The fund also uses derivatives with the aim of generating additional capital or income. A derivative is a financial instrument which derives its value from the value of an underlying asset. As a result of the use of derivatives, the fund can be leveraged by using derivatives. Usually the expected level of leverage is between 95-225%; maximum expected leverage: 500%. This means that the exposure to underlying assets may be much larger than 100%. Leverage may increase the effects of adverse market movements or decrease the effects of favourable market movements.

Subscription is only possible for investors with a portfolio management agreement with Danske Bank or other distributor as described in the prospectus.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Benchmark

The fund has no benchmark.

Risk and reward profile

Lower risk						Higher risk
Typically lower return						Typically higher return
1	2	3	**4**	5	6	7

The fund is categorized as 4. The indicator illustrates the typical correlation between the risk and your potential return of the investment. The categorization is determined by the fluctuations in the fund's net asset value over the past five years and/or representative data.

Significant historical volatility equals high risk and low volatility equals lower risk. Please note that the fund's categorization is not constant and the categorization may change over time. Historical performance data is not necessarily a reliable indicator of the future risk profile.

The risk indicator is purely a mathematical calculation and it does not take devaluations, political intervention and sudden fluctuations in interest rates and currencies into account. Risk class 1 is not a risk-free investment.

The principal risks of the fund are equity risk, interest rate risk, credit risk, leverage risk, derivative risk and exchange rate risk. As the fund will invest its assets in both the fixed income and equity markets, the changes in the market conditions and interest rates will affect the return of the fund.

For further details about risk, please refer to the following section in the fund's prospectus: "Risk Descriptions".

Charges

The charges you pay are used to cover the costs of running the fund, including marketing costs and distribution. These charges reduce the potential growth of your investment. The ongoing charges are based on the previous year's expenses. The figure may vary from year to year.

One-off charges taken before or after you invest	
Entry charge 1)	2.00%
Exit charge 2)	0.00%
1) This is the maximum that might be taken out of your money before it is invested. 2) This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.90%
Charges taken from the fund under certain specific conditions	
Performance fee	20% of the outperformance as described in the prospectus. In the fund's last financial year the performance fee was 0.00% of the fund.

The ongoing charges are based on the previous year's expenses. The figure may vary from year to year.

The ongoing charges excludes performance related fees and transaction costs including brokerage fees and bank charges on securities transactions.

The entry and exit charges shown are maximum figures. In some cases you may pay less. For further details please consult your financial adviser or distributor.

In addition, a conversion fee may be charged in relation to conversions as described in the prospectus.

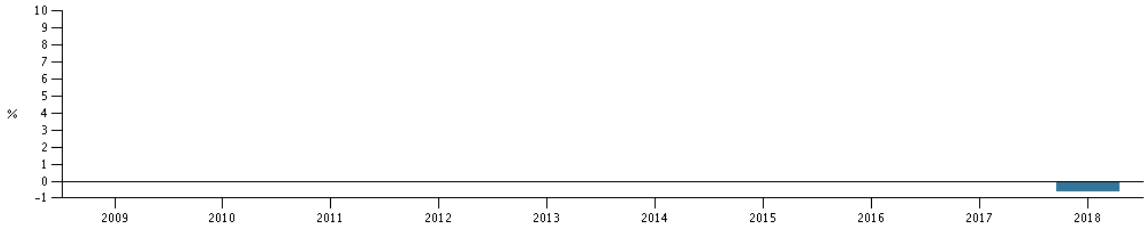

For more information about charges, please refer to the following section in the fund's prospectus: "Fund Fees and Costs".
