

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Danske Invest SICAV

Global Sustainable 130/30 Class A (LU1965271254)

This fund is managed by Danske Invest Management A/S, a subsidiary of Danske Bank A/S.

Objectives and investment policy

Objectives

The objective of this fund is to achieve above-market performance. The share class is accumulating.

Investment policy

The fund gains exposure, directly or through derivatives, to equities from developed markets anywhere in the world. These equities are issued by companies that meet certain Environment, Social and Governance (ESG) criteria, including carbon footprint.

Specifically, the fund targets a long equity exposure of 130% of net assets and a short equity exposure of 30%, but this may be adjusted depending on the managers' market outlook.

In actively managing the fund's portfolio, the managers use systematic, disciplined processes. The fund generally expects that its holdings, and therefore its performance, may differ significantly from those of the benchmark.

In addition to the sustainable investment policy that applies to all funds in the SICAV, this fund avoids equities of companies which are assessed to breach the principles of the United Nations Global Compact or are active in controversial weapons, or whose revenues mainly originate from sectors such as tobacco, or for other reasons have particularly low ESG scores.

The fund may use derivatives for hedging and efficient portfolio management, as well as investment purposes.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark (for performance comparison, risk management and portfolio construction)

MSCI World Index (net dividends reinvested).

Risk and reward profile

The fund is categorized as 5. The indicator illustrates the typical correlation between the risk and your potential return of the investment. The categorization is determined by the fluctuations in the fund's net asset value over the past five years and/or representative data.

Significant historical volatility equals high risk and low volatility equals

lower risk. Please note that the fund's categorization is not constant and the categorization may change over time. Historical performance data is not necessarily a reliable indicator of the future risk profile.

The risk indicator is purely a mathematical calculation and it does not take devaluations, political intervention and sudden fluctuations in interest rates and currencies into account. Risk class 1 is not a risk-free investment.

The principal risks of the fund are equity risk, leverage risk, derivative risk and exchange rate risk. As the fund will invest its assets in the equity markets, the value of the fund may fluctuate according to market conditions.

For further details about risk, please refer to the following section in the fund's prospectus: "Risk Descriptions".

Charges

The charges you pay are used to cover the costs of running the fund, including marketing costs and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge 1)	3.00%
Exit charge 2)	1.00%
1) This is the maximum that might be taken out of your money before it is invested. 2) This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	1.39%
Charges taken from the fund under certain specific conditions	
Performance fee	0% (the fund is not charged a performance fee).

The ongoing charges are based on the previous year's expenses. The figure may vary from year to year.

The ongoing charges excludes performance related fees and transaction costs including brokerage fees and bank charges on securities transactions.

The entry and exit charges shown are maximum figures. In some

cases you may pay less. For further details please consult your financial adviser or distributor.

In addition, a conversion fee may be charged in relation to conversions as described in the prospectus.

For more information about charges, please refer to the following section in the fund's prospectus: "Fund Fees and Costs".

Past performance

Launch date

10 December, 2019.

Calculation method

Below is shown the fund's and any benchmark's annual returns in percent including dividends if any. Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation. Past performance has been calculated in:

USD.

Disclaimer

Past performance is not a reliable indicator of future results.

Since the fund has existed less than a calendar year there are insufficient data to provide useful information regarding past performance.
